No good with faces

1. No good with faces and I'm bad with names,
2. Street lamps are broken, black the way I came,
3. Road signs were stolen, left here holding this flame.

1. gave me directions, but it's all the same, oh, oh,
2. who broke the moonlight watch it wax and wane, oh, oh,
3. Who stole my patience, who stole my way, oh, oh,

1. I'm lost.
2. I'm too tired to try.

Let's not get a head of our selves now. There's no need for rain it's our own parade.
Let's not be afraid of our reflections,
It's not only you you're looking at now.

It's not only you you're looking at now. Let's not get a head of our selves now. There's no need for rain it's our own parade.
Let's not be afraid of our reflections, It's not only you you're looking at now,
ooh, you're looking at now, ooh, you're looking at now,
